Subject: RE: ARSG Use Attainability Analysis - copy request

Sherry – I have a version of the UAA from Peter Butler on the I-drive. Not sure if this is the “complete complete” UAA report – CD of data sheets are missing & not sure what else might be missing. You can find the UAA on the 30-day Share folder on the I-drive in a sub folder titled “PSchmittdiel – Upper Animas”. In that folder is a folder titled “UAA PB version” – that is the version you want to use at the moment.

Let me know if you have Qs. Thanks.

Paula Schmittdiel

Subject: ARSG Use Attainability Analysis - copy request

Hi Paula,

Can I get a copy of the ARSG's Use Attainability Analysis for the Animas River? Do you also have a copy of the USGS's evaluation of that document? I got that reference from the Silverton Library - Von Guerard, Paul, 2001. Evaluation of Use Attainability Analysis for the Animas River Watershed. U. S. Geological Survey, Unpublished paper, 56 pages.

Thanks!

Sherry
